เปิด

Login - Login in with the incorrect email or password. Shows message 'Your email or password is incorrect!'

The screenshot displays a web application's login page. The page has a navigation bar with links: Home, Products, Cart, Signup / Login, and Test Cases. Below the navigation bar, there are links for API Testing, Video Tutorials, and Contact us. The main content area is titled "Login to your account". It contains a form with two input fields: "Email Address" (with the value "automated.test@mail.com") and "Password" (with a masked value "*****"). Below the form, there is a red error message: "Your email or password is incorrect!". A "Login" button is positioned below the error message.

The browser's developer tools are open, showing the HTML structure of the login form. The form is a POST request to the "/login" endpoint. It contains a hidden CSRF token, an email field, and a password field. The error message is displayed in a red color, as indicated by the CSS rule in the Styles pane: `element.style { color: red; }`.

Signup - Section

The screenshot displays a web application's "New User Signup!" page. The page has a navigation bar with links: Home, Products, Cart, Signup / Login, and Test Cases. Below the navigation bar, there are links for API Testing, Video Tutorials, and Contact us. The main content area is titled "New User Signup!". It contains a form with two input fields: "Name" and "Email Address". Below the form, there is a "Signup" button.

The browser's developer tools are open, showing the HTML structure of the signup form. The form is a POST request to the "/signup" endpoint. It contains a hidden CSRF token, a name field, an email field, and a hidden form type field. The "Signup" button is a submit button with the class "btn btn-default".
